In making an investment decision prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

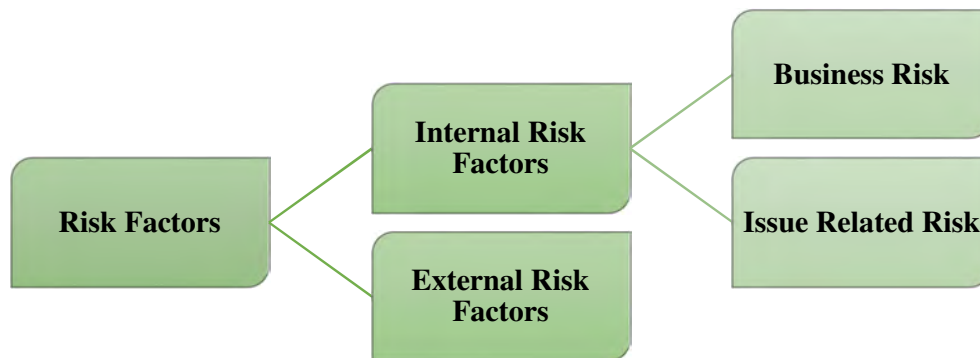

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. To obtain a complete understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 95, “Our Industry” beginning on page 85 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 186 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively;*
- *Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page 3 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

A. INTERNAL RISK FACTORS

I. Business Risks/ Company specific Risk

1. ***Our Company is yet to achieve scalable operations and has limited operating history, which may make it difficult for investors to evaluate our future prospects based on past results.***

Our Company was incorporated on January 27, 2012. Given our Company's limited operating history, we may not have sufficient experience to address the risk frequently encountered by an early stage company, including our ability to successfully complete our orders or maintain adequate control of our costs and expenses. For Financial Year 2016-17, our Company achieved a capacity utilisation of 36.94%. Hence, the capacity remains unutilised and scalable operations are yet to be achieved. Given the nature of the industry in which we operate, we often do not have complete information of our competitors, accordingly we may underestimate supply in the market. Accordingly, investors should consider our business and prospects in the light of risk, losses and challenges that we may face as an early stage company and should not rely on our results of operations for any prior periods as an indication of our future performance. However we have been constantly increasing our production and sales and adding new customers both in domestic and international markets.

2. ***Increase in the cost of, or a shortfall in the availability of our raw materials could have an adverse effect on our business, results of operations and financial condition.***

The principal raw materials used by us for manufacturing Polymer Modifiers, Contrast Media Intermediates and Drug Intermediates are Caustic Soda Lye, Isophthalic acid, Methylene Chloride, Oleum, Sulphuric Acid etc. The price of these raw materials has been fluctuating which is evident from the cost of materials consumed to revenue from operations ratio of 57.43%, 57.71%, 63.68% and 83.95% for the quarter ended June 30, 2017, financial years 2016-17, 2015-16 and 2014-15 respectively. The price and availability of these raw materials depend on several factors beyond our control, including overall economic conditions, production levels, market demand and competition for such materials, production and transportation cost, duties and taxes and trade restrictions.

Any increase in raw material prices may affect our procurement of raw materials and will result in corresponding increases in our product costs, while the increase in the selling price of the finished products may not be proportionate to the increase in raw material price. Such change in pricing may adversely affect our sales, cash flow and our overall profitability. We usually do not enter into long term supply contracts with any of our raw material suppliers and typically place orders with them after firm-orders are received by us. The absence of long term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require. If we are unable to compensate for or pass on our increased costs to end-customer, such price increases could have an adverse impact on our result of operations, financial condition and cash flows. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us. Any inability on our part to procure raw materials from alternate suppliers in a timely fashion, or on terms acceptable us, may adversely affect our operations. However, the raw material prices are stable as of now and we have been able to price our products in relation to raw material prices.

3. ***Our registered office is not owned by our Company.***

Our registered office situated at 49/3-B, Shyamal Row Houses, 100 Feet Road, Near Sanjay Tower, Satellite, Ahmedabad, Gujarat- 380015 is owned by Bharat Rasiklal Chokshi (HUF), our promoter group. Mr. Bharat Rasiklal Chokshi, Karta of the HUF has given No Objection Certificate to our Company dated September 15, 2017 for use of the said premise.

Any discontinuance of such arrangement will lead us to locate to any other premises. Our inability to identify the new premises may adversely affect the operations, finances and profitability of our Company. Since the registered office is owned by our promoter group, we do not foresee any problem in using the premises in future.

4. *Our Trademark* LABORATORIES *is not registered under Trade Marks Act, 1999*

Our Trademark LABORATORIES is not registered under the Trade Marks Act, 1999. Our company is in process to register the Trademark. We cannot assure you that we will be able to obtain such registration, in case we determine to apply in the later course of time. As a result, we may be unable to prevent use of these names or variations thereof by any other party or ensure that we will continue to have a right to use it. We further cannot assure you that any third party will not infringe upon our trademark, logo and/or trade name in a manner that may have a material adverse effect on our business prospects, reputation and goodwill. If we are unable to protect our trademarks and trade-names, others may be able to use our trademarks and trade names to compete more effectively.

5. *Our operations are subject to environmental, health and safety laws and regulations.*

Our operations are subject to various Central and State environmental laws and regulations relating to the control of pollution in the area where we operate. In particular, the discharge or emission of chemicals, dust or other pollutants into the air, soil or water that exceed permitted levels and cause damage to others may give rise to liability to the Government and third parties, and may result in our incurring costs to remedy such discharge or emissions. There can be no assurance that compliance with such environmental laws and regulations will not result in a curtailment of operations, or a material increase in the costs of operations, or otherwise have a material adverse effect on the financial condition and results of our operations. Environmental laws and regulations in India have been increasing in stringency and it is possible that they will become significantly more stringent in the future. Stricter laws and regulations, or stricter interpretation of the existing laws and regulations, may impose new liabilities on us or result in the need for additional investment in pollution control equipment, either of which could adversely affect our business, financial condition or prospects. While as of the date of this Draft Prospectus, we are not subject to any environmental legal proceedings, we may be impleaded in such legal proceedings in the course of our business. Such legal proceedings could divert management time and attention, and consume financial resources in defense or prosecution of such legal proceedings or cause delays in the production, development or commencement of operations of our projects. No assurance can be given that we will be successful in all, or any, of such proceedings. However, we have installed and maintained all equipments as required for pollution control and have not been given any adverse remark by Gujarat Pollution Control Board.

6. *The products we manufacture deal with heat and Chemical structure which may catch fire during the process of manufacture.*

The products we manufacture i.e. Polymer Modifiers, Contrast Media Intermediates and Drug Intermediates deals with heat and Chemical structure which may catch fire during the process of manufacture. Though we have installed firefighting systems in the premises and covered ourselves with Insurance and we take all the care and precautionary measures but we cannot completely rule out every possibility of mishap or accident. Any such accident may result in manufacturing stoppage or other liability on our company. However, we have maintained all fire equipments as stipulated and also train our employees on a regular basis as how to prevent fire and avoid any loss of human life.

7. **Maximum portion of our revenues is dependent on our exports to international customers. Any failure to fulfill the requirements of our international customers may adversely affect our revenues, result of operations and cash flows.**

Maximum of our revenue is derived from exports. Exports constituted 55.89%, 69.49%, 60.32% and 31.84 % of our total revenue from operations for the quarter ended June 30, 2017, year ending March 31, 2017, 2016 and 2015, respectively as per restated financial statements. Our operations may be impacted by various risks inherent in international sales, including, failure of our global delivery service model, restrictions imposed on sale and purchase of our products by the respective governments where our customers are located and economic, political or regulatory uncertainty, currency exchange rate fluctuations and varied regulatory framework and requirements. To the extent that we are unable to effectively manage our global operations and risks, we may be unable to maintain our revenue and profitability, or we may be subject to additional unanticipated costs or legal or regulatory action. As a consequence, our business, financial condition, results of operations and cash flows may be adversely affected. However, we have been regularly receiving repeated orders from our international clients and do not see any change in their preferences as we maintain quality check and timely deliver our orders.

8. **We have had certain inaccuracy in relation to regulatory filings to be made with RoC and our company has made non-compliances for non-filing of certain statutory forms under the provisions of Companies Act, 2013.**

Our Company has not complied with certain provisions of the Companies Act, 2013 in the past, for instance, non-filing of forms related to allotment of shares and regularisation of Director with Registrar of Companies have not been registered and taken on record. Where forms were not available we have considered allotments based on the records maintained by our Company. Although no show cause notice have been issued against the Company till date in respect of above and Company is in the process of rectifying non-compliances made by the Company.

The details of Non-compliances are as under:

Particular	Date of Event	Non-Compliance
Regularisation of Mr. Shalin Sudhakarbhay Patel from Additional Director to Executive Director	September 30, 2014	Relevant forms not filed with ROC
Right Issue of Shares made to the Promoter & Promoter Group	August 05, 2015	

In the event of any cognizance being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors, in which event the financials of the Company and its directors may be affected.

9. **Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.**

We have put in place strict quality control procedures but we cannot assure that our products will always be able to satisfy our clients/customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation and our operations. Introduction of new products or for any other reason, any failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. However, we have established a QC department which analyses every product for its quality and reliability.

10. Any delay or default in payment from our customers could result in the reduction of our profits and affect our cash flows.

Our operations involve extending credit, ranging typically from 60 to 90 days, to our customers in respect of our products. Consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. Accordingly, we had and may continue to have high levels of outstanding receivables. For the quarter ended June 30, 2017, financial year ended 2016-17, 2015-16 & 2014-15, our trade receivables were Rs. 848.16 Lakhs, Rs. 821.56 Lakhs, Rs. 607.30 Lakhs and Rs. 158.26 Lakhs respectively, which constituted 97.66%, 23.87%, 22.64% and 12.20% respectively of our gross revenues from operations for the same periods respectively as per restated financial statements. However, in the past there has been no instance of non-receipt of payment from our customers.

11. Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on certain assumptions and has been subjected to rounding off and future production and capacity utilization may vary.

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on various assumptions and estimates of our management, including proposed capacity, assumptions relating to availability and quality of raw materials, assumptions relating to operational efficiencies of products manufactured by us. Actual production levels and utilization may differ significantly from the estimated production capacities or historical estimated capacity utilization of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Draft Prospectus. For further information, see the section titled "Our Business" on page 95 of this Draft Prospectus.

12. Any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Draft Prospectus would be subject to certain compliance requirements, including prior shareholders' approval.

We propose to utilise the Net Proceeds as stated under section titled "Objects of the Issue". For further details of the proposed objects of the Issue, please refer to section titled "Objects of the Issue" beginning on page 77 of this Draft Prospectus. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Draft Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or in ability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Fresh Issue, if any, or vary the terms of any contract referred to in this Draft Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

13. *Orders placed by customers may be delayed, modified, cancelled or not fully paid by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may result in the postponement of the delivery of products or cause its cancellation. Accordingly, it is difficult to predict with certainty that, when, and to what extent we may be able to deliver the orders placed. Further, we may be bound to certain terms in the contracts entered with the customers any non-adherence to the same may lead to breach of the contract, which may subject us to penalties and liquidated damages. Any failure to adhere to the conditions which may be beyond our control may subject us to liquidated damages which could have an effect on the result of operation and cash flow. However, we have always followed policy of timely delivery of goods, execution of orders and ensuring customer satisfaction.

14. *Our Company had availed certain unsecured loans on long term basis which are being repayed out of IPO proceeds.*

Our Company had availed long term unsecured loans from lenders including our Promoters, Directors and Shareholders. The total amount of unsecured loans as on December 16, 2017 is Rs. 1211.83 Lakhs. Our Company is repaying Rs. 840.60 Lakhs out of the IPO proceeds. The IPO proceeds shall be utilized for retiring of debt and not for business operations.

15. *We face foreign exchange risks, primarily in export of our products that could adversely affect our results of operations.*

We import raw materials and export our products in the overseas markets. Total imports constitute 52.62, 47.68, 37.50, and 29.19 of our cost of material consumed for the quarter ended June 30, 2017, year ending March 31, 2017, 2016 and 2015, respectively as per restated financial statements. Total exports constitute 55.58%, 68.46%, 60.09 % and 31.63% of our total revenue from operations for the quarter ended June 30, 2017, year ending March 31, 2017, 2016 and 2015, respectively as per restated financial statements. Accordingly, any decrease in the value of the Rupee against the foreign currency would increase the Rupee cost of raw materials. Any increase in Rupee against the foreign currency would reduce the realization of exports.

Fluctuations in the exchange rates may affect the Company to the extent of cost of material imported or traded in foreign currency terms, the details of which are given hereunder: -

(Rs. In Lakhs)

Particulars	June 30, 2017	March 31.		
		2017	2016	2015
CIF Value of Imports	262.42	994.74	640.43	317.82
FOB Value of Exports	485.39	2078.91	1376.42	370.22

Although we closely follow our exposure to foreign currencies and selectively enter into hedging of foreign currency since we have natural hedge of imports with exports. However, a substantial appreciation in the value of rupee may adversely affect our results of operation.

16. *Our Company had incurred losses in financial year 2014-15.*

Our Company had incurred losses in financial year 2014-15. For further details regarding the performance of our Company, please refer to Chapter titled “Financial Information” beginning on page 156 of this Draft Prospectus. If financial losses persists, it may not be perceived positively by external parties such as customers, bankers, lenders, suppliers, etc, which may affect our credibility and business operations.

17. *We have to update the name of our company in most of the statutory approvals and certificates due to the conversion of our Company.*

Most of our statutory approvals and certificates are in the name of Arvee Laboratories (India) Private Limited. Since our company was converted into a public limited company pursuant to shareholder’s resolution dated September 11, 2017 and fresh certificate of incorporation dated September 19, 2017 we have to update the name Arvee Laboratories (India) Limited on all of the statutory approvals and certificates including PAN for which an application has already been made. We cannot ensure that we will be able to update the said documents in a timely manner.

18. *In case of our inability to obtain, renew or maintain the statutory and regulatory licenses, permits and approvals required to operate our business it may have a material adverse effect on our business.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Though we believe that we have obtained those permits and licenses which are adequate to run our business. However, there is no assurance that there are no other statutory/regulatory requirements which we are required to comply with. However, some of the approvals are granted for a fixed period of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied with. Any default by our Company in complying with the same, may result in interalia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

For further details, please refer to section titled “Government and Other Statutory Approvals” beginning on page 205 of this Draft Prospectus.

19. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.*

Our industry being labour intensive is dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/ unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management’s attention and result in increased costs.

India has stringent labour legislation that protects the interest of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and termination of employees and work permits. Although our employees do not unionize, it may become difficult for us to maintain flexible labour policies and we may face threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

20. *We face competition in our business from domestic and overseas competitors. Such competition would have an adverse impact on our business and financial performance.*

The industry, in which we are operating, is competitive and our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

21. *Increasing expansion and push for R&D upgradation increase the costs.*

Our business is very sensitive to environment since it uses various chemicals. Our Company has to constantly upgrade and adopt the new technologies in order to minimize its effects on environment. Our Company has put forward continuous and conscious efforts to match the pace of technological advancements with the business requirements. Our company has to incur cost for the same and to that extent it may adversely affect our business operations and our financial condition.

22. *There are outstanding litigation by/against our Company, our Promoters, our Directors and our Group Entities and any adverse outcome in any of these proceedings may adversely affect our profitability and reputation and may have an adverse effect on our results of operations and financial condition.*

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in some of the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

(Rs. in Lakhs)

Particulars	As on June 30, 2017	As on March 31,				
		2017	2016	2015	2014	2013
Cash Flow from/ (used in) Operating Activities	905.24	3,726.86	3,219.31	2,135.85	1,149.39	385.52
Cash Flow from/ (used in) Investing Activities	2.55	(98.27)	(451.63)	(559.01)	(628.37)	(324.85)
Cash Flow from/ (used in) Financing Activities	(82.43)	(252.55)	(125.95)	(226.90)	664.89	(59.99)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

- 24. High dependence on the smooth supply and transportation of our products. Supply and transportation are subject to various uncertainties and risks, and delays in delivery or non-delivery may result in rejected or discounted deliveries.**

We depend on transportation services to deliver our products. We rely on third parties to provide such services. Disruptions of transportation services because of weather related problems, strikes, lock-outs, inadequacies in road infrastructure or other events could impair our ability to supply our products to our customers. There is no assurance that such disruptions will not occur in the future. Any such disruptions could materially adversely affect our business, financial condition and results of operations.

- 25. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.**

Modernization and technology up gradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing technology employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

- 26. Our Company has filed certain forms late with additional fees with Registrar of Companies as prescribed under the Companies Act.**

Under the provisions of Companies Act, certain forms are required to be filed within prescribed timelines. In the past our Company has exceeded such timeline for filing the forms and has paid additional fees. If our company fails to comply with the provisions for filing of forms under the provisions of the Companies Act, then the company and/or every officer of the company who is in default is punishable with fine.

- 27. Our business is dependent on the adequate and uninterrupted supply of electrical power at a reasonable cost. Failure on account of unavailability of electrical power may restrict us in utilizing our full capacity and, hence, may impact our business and results of operation.**

Adequate and cost-effective supply of electrical power is critical to our operations, which entails significant consumption of electrical power. The total cost of power & fuel constituted 2.12%, 3.03%, 4.46% and 4.90% of gross revenue for quarter ended June 30, 2017, year ended March 31, 2017, 2016 and 2015, respectively as per restated financials. Currently, we source of our power requirements from the local power distribution company. There can be no assurance that electricity supplied by them will be sufficient to meet our requirements. Further, if the per unit cost of electricity is increased by the local power distribution company, required management decisions will have to be taken to cover the increased cost.

- 28. We have entered into certain transactions with related parties. These transactions or any future transactions with our related parties could potentially involve conflicts of interest.**

We have entered into certain transactions with our Promoters, Promoter Group, Group Companies, Directors and their relatives and may continue to do so in future. For absolute value of all transactions entered into with our related party entities please refer to Statement of Related Party Transactions under chapter "Financial Statement" beginning on page 156 of this Draft Prospectus. These transactions or any future transactions with our related parties could potentially involve conflicts of interest. However, the Company cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on business and financial results. Our Company shall follow the provisions as laid down under Companies Act, 2013 and SEBI (LODR) Regulations, 2015.

29. *If we are unable to raise additional capital, our business prospects could be adversely affected.*

We intend to fund our development plans through our internal accruals, borrowings and capital. We will continue to incur significant expenditure in maintaining and growing our existing manufacturing infrastructure. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our internal accruals and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on favourable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

30. *Our indebtedness and the restrictive covenants imposed upon us in certain debt facilities could restrict our ability to conduct our business and grow our operations, which would adversely affect our financial condition and results of operations.*

As the date of draft prospectus, we have sanction limit fund based and non-fund based limits of Rs. 1850.00 Lakhs from Standard Chartered Bank. The agreements governing our existing indebtedness contain restrictions and limitations, such as restriction on withdrawal of profits/ capital without prior approval of bank and retention of entire profits in the business, etc. There can be no assurance that our Company has, and will, at all times have, complied with all of the terms of the said financing documents. Any failure to comply with the financial or other covenants or obtain the consents necessary to take the actions may affect our business and operations. Further, any failure to service our Company's indebtedness and/or to comply with all of the terms of the said financing documents could have an adverse effect on the operations and/or profitability of our Company. However, we have always maintained financial discipline with Banks and there is no instance of not meeting financial obligations or non-compliance with the terms and condition as on the date of this Draft Prospectus. For further details on restrictive covenants, please refer to the chapter titled "Financial Indebtness" beginning on page 198 of this Draft Prospectus.

31. *Breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business.*

Breakdowns of our major plants or machineries may significantly increase our machineries purchase cost/repair and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all, particularly where our plants or machineries are not readily available from the market or require services from original machinery manufacturers. Some of our major machineries or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability. For further details of our Plant and Machineries, please refer to page 110 of this Draft Prospectus.

32. Our Company has contingent liabilities which if materialised may adversely affect the financial position of the Company.

As on June 30, 2017 our Company has contingent liabilities of Rs. 9.01 Lakhs as follows:

Some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

34. Our success depends largely upon the services of our Management and other Key Managerial Personnel and our ability to retain them. Our inability to attract and retain key managerial personnel may adversely affect the operations of our Company.

Our Company and our Promoters have built relations with suppliers, clients and other persons who are connected with our business. Further, our Key Managerial Personal also possesses the requisite domain knowledge to provide efficient services to our clients. Accordingly, our Company's performance is dependent upon the services of our Promoters and other Key Managerial Personnel. Our future performance will, therefore, depend upon the continued services of these persons. Demand for key managerial personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.

35. Our Key Management Personnel are associated with the Company less than one year.

Our Key Management Personnel's i.e. Chief Financial Officer and Company Secretary are associated with the Company for a period of less than one year. For details of Key Management Personnel and their appointment, please refer to chapter "Our Management" beginning on page 130 of this Draft Prospectus.

36. *We have not independently verified certain data in this Draft Prospectus.*

We have not independently verified data from the Industry and related data contained in this Draft Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

37. *Our operations may be adversely affected in case of industrial accidents at our production facility.*

Usage of heavy machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, cranes, chemical process, etc. may result in accidents which could cause injury to our labour, employees, other persons on the site and could also damage our properties there by affecting our operations. Occurrence of accidents could hamper our production and consequently affect our profitability.

38. *Loans availed by our Company have been secured on personal guarantees of our Promoter and Promoter Group members. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees or collateral securities provided by our Promoter and Promoter Group members.*

Our Promoter and Promoter Group Members has provided personal guarantees as security to secure our existing borrowings of Rs. 1,850.00 Lakhs taken from Standard Chartered Bank and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by our Promoter and Promoter Group Members may be invoked and/ or the security may also be enforced, which could negatively impact the reputation and networth of the Promoters. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. In addition, our Promoter and Promoter Group Members may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. However, we have following policy of complying with all terms and conditions of loan agreements and we ensure timely compliance of its terms. For further details regarding loans availed by our Company, please refer "Statement of Financial Indebtedness" on page 198 of this Draft Prospectus.

39. *Our insurance coverage may not be sufficient or may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.*

We have taken insurance which may not be adequate enough for covering the entire future unforeseen liabilities that might occur in the normal course of business. There can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part or on time by the insurers. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected. For further details on insurance arrangements, see the section titled “*Our Business*” on page 95 of this Draft Prospectus.

40. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of our Company.*

Our Company is engaged in business of manufacturing of Polymer Modifiers, Contrast Media Intermediates and Drug Intermediates, which attracts tax liability such as Customs duty, Excise, VAT, GST, Income Tax, as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund, etc. Though, we have deposited the required returns under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of our Company.

41. *Our Promoters and the members of our Promoters Group will continue to retain significant control in the Company after the Issue, which will enable them to influence the outcome of matters submitted to shareholders for approval. Our Promoters and the members of our Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.*

As the date of Draft Prospectus, our Promoters and the members of our Promoter Group hold 100.00% equity share capital of the Company. After completion of the Issue, our Promoters and the members of our Promoter Group will hold 73.50% of the equity shares capital of the Company and continue to retain a significant control of the Company. As a result, our Promoters and our Promoter Group will have the ability to control our business, including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company’s best interest. In addition, for so long as our Promoters and the members of our Promoter Group continue to exercise significant control over the Company they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. Our Promoters and the members of our Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

II. Risk related to this Issue and our Equity Shares

- 42. Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.**

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

- 43. Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.**

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

B. EXTERNAL RISK FACTORS

- 44. Natural calamities and force majeure events may have an adverse impact on our business.**

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

- 45. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.**

The Issue Price of the Equity Shares will be determined by our Company in consultation with the LM and will be based on numerous factors. For further information, see the section titled "Basis for Issue Price" on page 81 of this Draft Prospectus. The Issue Price may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurances that applicants who are allotted Equity Shares through the Issue will be able to resell their Equity Shares at or above the Issue Price.

- 46. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.**

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months is not subject to capital gains tax in India if securities transaction tax ("STT") is paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax. Any change in tax provisions may significantly impact your return on investments.

Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For further details, see the section titled "Statement of Tax Benefits" on page 83 of this Draft Prospectus.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October, 2004 shall be available only if the acquisition of share is chargeable to Securities Transactions Tax (STT) under Chapter VII of the Finance (No 2) Act, 2004. In case this provision becomes effective, sale shares acquired on or after 1st day of October, 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

- 47. We have not prepared, and currently do not intend to prepare, our financial statements in accordance with the International Financial Reporting Standards ("IFRS"). Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.***

Public companies in India, including us, may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (the "IFRS Convergence Note"). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 35 Indian Accounting Standards are to be converged with IFRS. The date of - implementation of such converged Indian accounting standards has not yet been determined. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of converged Indian Accounting Standards may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period and in the corresponding (restated) period in the comparative Fiscal/period.

- 48. Political instability or changes in the Government could adversely affect economic conditions in India generally and our business in particular.***

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company's business could cause its results of operations to suffer. Any significant change in India's economic policies could disrupt business and economic conditions in India generally and the Company's business in particular.

- 49. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval

required from the RBI or any other government agency can be obtained on any particular terms or at all.

50. Economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

51. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the Mumbai terrorist attacks and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

52. Investors may be adversely affected due to retrospective tax law changes made by the GoI affecting us.

Certain recent changes to the Income Tax Act provide that income arising directly or indirectly through the sale of a capital asset of an offshore company, including shares, will be subject to tax in India, if such shares derive indirectly or directly their value substantially from assets located in India. The term "substantially" has not been defined under the Income Tax Act and therefore, the applicability and implications of these changes are largely unclear. Due to these recent changes, investors may be subject to Indian income taxes on the income arising directly or indirectly through the sale of the Equity Shares. In the past, there have been instances where changes in the Income Tax Act have been made retrospectively and to that extent, there cannot be an assurance that such retrospective changes will not happen again.

SECTION III- INTRODUCTION

SUMMARY OF OUR INDUSTRY

OVERVIEW OF INDIAN ECONOMY

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP and Other Indicators

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

India's GDP (Gross Domestic Product) growth has recovered to 6.3% in the second quarter from a three-year low of 5.7% in first quarter, said the Ministry of Statistics and Programme Implementation (MOSPI).

The GDP at constant (2011-12) prices in Q2 of 2017-18 is estimated at Rs 31.66 lakh crore, as against Rs 29.79 lakh crore in Q2 of 2016-17, showing a growth rate of 6.3%. Quarterly GVA (Gross Value Added) at basic price at constant (2011-12) prices for Q2 of 2017-18 is estimated at Rs 29.18 lakh crore, as against Rs 27.51 lakh crore in Q2 of 2016-17, showing a growth rate of 6.1% over the corresponding quarter of previous year.

INDUSTRY OVERVIEW

In terms of value and production volume, Indian chemical industry is the 3rd largest producer in Asia & 6th by output in the world. In 2016, Chemical sector had a market size of USD 139 billion and by 2025, it is projected to reach USD 403 Billion. It is a key constituent of the Indian economy accounting for about 2.1 percent of the GDP. More than 70,000 commercial products such as petrochemicals & basic chemicals are covered under this particular sector.

The Budget 2017-18 focuses on boosting the industry, and reduction in corporate tax for MSMEs by 5 per cent and the new Trade Infrastructure Export Scheme will help exporters reduce transaction costs and become globally competitive. Also, initiatives such as CBEC's Single Window Interface for Facilitating Trade (SWIFT), Make in India, relaxation of environmental norms for the chemical industry and the expected GST roll-out would spur the growth of chemical sector. India is the fourth largest producer of agrochemicals. The Basic Chemicals and Dyes Export Promotion Council (CHEMEXCIL) has played a key role in promoting exports of the products in its basket by showcasing the capabilities of Indian chemical industry to the world. Chemicals sector also acts as a key enabling industry and provides support for variety of other sectors like agriculture, construction, leather etc. Total production of the major chemicals including petrochemicals was 23.9 million tons during 2015-16 while production of polymers stood at around 9 million tons. India's proximity to the Middle East, the world's source of petrochemicals feedstock, makes for economies of scale. Polymer demand is expected to grow by 8-10% with healthy growth in industries such as clothing, automobiles etc. Chemical sector is one of the most diversified in the world, covering more than 70,000 commercial products. India also accounts for approximately 15% of the world production of dyestuff and dye intermediates.

SECTION IV- ABOUT THE COMPANY

OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

OVERVIEW OF INDIAN ECONOMY

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP and Other Indicators

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

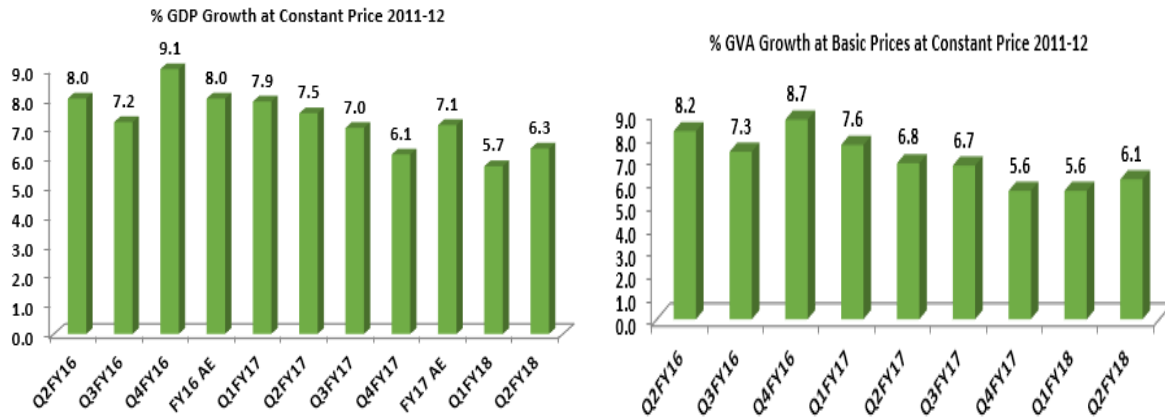

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

India's GDP (Gross Domestic Product) growth has recovered to 6.3% in the second quarter from a three-year low of 5.7% in first quarter, said the Ministry of Statistics and Programme Implementation (MOSPI).

The GDP at constant (2011-12) prices in Q2 of 2017-18 is estimated at Rs 31.66 lakh crore, as against Rs 29.79 lakh crore in Q2 of 2016-17, showing a growth rate of 6.3%. Quarterly GVA (Gross Value Added) at basic price at constant (2011-12) prices for Q2 of 2017-18 is estimated at Rs 29.18 lakh crore, as against Rs 27.51 lakh crore in Q2 of 2016-17, showing a growth rate of 6.1% over the corresponding quarter of previous year.

Segmental Opportunities

1. Speciality Chemicals

Specialty chemicals market has expanded at a CAGR of about 12 per cent over FY07–11; the figure is expected to rise by 9.43 per cent from FY14 to reach USD90 billion by FY23, India is also gaining traction as an outsourcing hub. The Indian middle-class household is expected to grow from 31 million in 2008 to 148 million by 2030, leading to a huge demand for specialty chemicals in automotives, water treatment & construction. Compared to developed markets, current usage of specialty chemicals in India is very low, with an increased focus on improving products & usage intensity of specialty chemicals, the industry is poised for strong growth in future. India's construction chemical market stood at USD573.2 million in 2014, which grew to USD649.75 million in 2015. With the construction sector expected to pace ahead due to strong economic growth, the fundamentals for construction chemicals are sound. By 2019, the construction chemicals sector is set to touch USD1146.4 million. India's construction chemical sector consists of a variety of products ranging from admixtures to sealants. Admixtures form the largest segment with a 42 per cent share, followed by 18 per cent share of adhesives & sealants. The polymer industry will receive a boost from the proposed additional strategic crude oil reserves. The focus on 'Housing for All' scheme is prominent as the target of providing 1 crore houses with a budget of US\$ 4.02 billion, would give a push to the chemicals sector. Water treatment chemicals are widely used in purification of water & also in large power plants, refineries & fertiliser factories. Automotive sector in India has been expanding at a CAGR of ~12 per cent over the last 5 years. Automotive sector growth will drive demand for automotive components & consequently for plastics, paints & coatings used in their production.

2. Polymer chemicals

India is currently the world's third largest consumer of polymers, behind China and the US, India's polymer consumption is 6.2 million tonnes which constitutes 3 per cent of the global consumption. Per capita consumption of polymer in India is 5.2 kg whereas China's per capita polymer consumption is 30 kg. Indian Polymer market has grown at a CAGR of 23.02 per cent over 2005-15 to USD1310 million. The sector is expected to grow at a higher rate due to growth in plastic demand resulting from increased usage in packaging, construction and automotive sectors. Due to increasing environmental concerns and cost, replacement of wood, metal and glass by plastic will also augment demand. Polymer production in India is around 9 million tonnes & imports stand at 2.8 million tonnes.

3. Agrochemicals

India is the 3rd largest producer of agrochemicals, globally & ranks 4th in terms of production of crop protection chemicals. The market for crop protection chemicals in India is expected to reach to USD7.5 billion by FY19 & register exports of about 50 per cent of value of Indian crop protection industry. The 7 states including Andhra Pradesh (AP), Maharashtra, Punjab, Madhya Pradesh & Chhattisgarh, Gujarat, Tamil Nadu & Haryana account for usage of over 70 per cent crop protection chemicals in India; wherein Andhra Pradesh is a leading consumer of agrochemicals with a market share of 24 per cent. Agrochemical industry in India is set to grow at a significant pace; increasing population, decreasing per capita availability of arable land & focus on increasing agricultural yield will fuel the demand for agrochemicals. India's per hectare agrochemical consumption is set to rise in the coming years, given the above-mentioned factors. In 2015, India has become one of the largest exporters of agrochemicals globally. Insecticides India Ltd launched a mobile app for its customers, to provide them important updates and information about products offered by the company.

Foreign Investments in the sector

Procedures relating to FDI have been simplified; most of the items in the chemicals sector fall under the automatic approval route for FDI/NRI/OCB investment up to 100per cent. In March 2017, H.B Fuller has opened a new office in Pune & a new R&D center at its manufacturing facility in Shirwal, concluding the 1st phase of US\$20 million planned investment in India. The plant with a capacity of 24,000 metric tonnes per annum spans across 5000-sq. ft. area. The company’s expansion would help them serve the customers better & to increase their footprint in India in industrial adhesives field. In April 2017, Berger Paints India signed an MoU with Chugoku Marine Paints, a Japan-based company, with an aim to strengthen the cooperation and collaboration in the field of marine & related industrial paints. Under the MoU, the companies plan to establish a joint venture company for joint efforts in marketing, supply, purchasing marine related industrial paints.

RESEARCH AND DEVELOPMENT

Our R&D laboratory is well equipped with essential resources to carry on processes requiring low temperature reactions from -25 Deg C to high temperature fusion reactions at 1500 Deg C. Our team carries out development and synthesis of new products starting with making few grams of product in the lab and further scale up to 50 kilograms within our in house pilot plant facility. Finally our R&D scientists successfully commercialize the developed technology to several metric tons in our state of the art production facility.

The **Research and Development** team has talented individuals who with their practical understanding and extensive theoretical knowledge keep themselves deeply buried in various research and development processes. The team comprising of experienced chemists, engineers and scientist is an eclectic mix of talent and expertise.

A highly motivated team of research professionals have dedicated their time, energy and soul towards the cause of researching and they work round the clock to amuse the industry with new products and processes. R&D operations include the search for the new molecules, identification of the right route of synthesis, optimization of the control parameters, the tailoring of specifications, pilot plant studies, scaling up of processes developed in the lab and validation of the entire newly developed production system.

To assure trouble-free and totally integrated research and development operations, the R&D department of Arvee conducts programs that are planned, reviewed and validated as per the ISO quality management system requirements. A **Technical Committee**, comprising of experienced Organic Chemists, Chemical Engineers and Analytical Scientists, approve the R&D findings periodically and ensure proper implementation of organizational needs.

To make the R&D wing the hub of innovation and world-class new technology and processes, the group has left no stone unturned in equipping it with state of the art technical support and all-encompassing theoretical back up. R&D division has excellent access to technical reports and reviews published in national and international journals of repute, latest scientific journals and extensive computer database.

For the analytical part, equipment like HPLC, Gas Chromatographs, UV Visible Spectrophotometers, Melting Point Apparatus, Karl Fischer Titrators and many more make it a complete analytical hub.

GST is a single tax on the supply of goods and services, right from the manufacturer to the consumer. Credits of input taxes paid at each stage will be available in the subsequent stage of value addition, which makes GST essentially a tax only on value addition at each stage. The final consumer will thus bear only the GST charged by the last dealer in the supply chain, with set-off benefits at all the previous stages.

Factory means any premises, including the precincts thereof, wherein or in any part of which excisable goods are manufactured, or wherein or in any part of which any manufacturing process connected with the production of these goods being carried on or is ordinarily carried out. It extends to the whole of India. Every dealer who makes an inter-state sale must be a registered dealer and a certificate of registration has to be displayed at all places of his business. There is no exemption limit of turnover for the levy of central sales tax. The tax is levied under this act by the Central Government but, it is collected by that state government from where the goods were sold. The tax thus collected is given to the same state government which collected the tax. In case of Union Territories, the tax collected is deposited in the consolidated fund of India.

VALUE ADDED TAX (“VAT”)

VAT is a system of multi-point levy on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each state that has introduced VAT has its own VAT Act, under which, persons liable to pay VAT must register and obtain a registration number from Sales Tax Officer of the respective State.

The financial statements are prepared in Indian rupees rounded off to the nearest lakhs.

3. Significant Accounting Policies:

3.1 Operating Cycle:

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalent.

3.2 Use of Estimates

The preparation of financial statements in conformity with GAAP in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. On an ongoing basis, estimates are evaluated based on historical experience and on various other assumptions that are believed to be reasonable, the results of which forms the basis for making judgments about the carrying value of assets and liabilities. Actual results could differ from those estimates. Any revision to estimates or difference between the actual result and estimates are recognized in the period in which the results are known/ materialized.

3.3 Fixed Assets

(i) Fixed assets are accounted for on historical cost basis (inclusive of the cost of installation and other incidental costs till commencement of commercial production) net of recoverable taxes, less accumulated depreciation and impairment loss, if any.

(ii) Expenditure on renovation/ modernization relating to existing fixed assets is added to the cost of such assets where it increases its performance/life significantly.

(iii) Cost of leasehold land is amortized over the period of lease.

3.4 Depreciation

(i) Depreciation on fixed assets is provided on Straight line method as per the useful life of the assets estimated by the management, in the manner prescribed in Schedule II of the Companies Act, 2013.

(ii) Depreciation in respect of addition to fixed assets is provided on pro-rata basis from month to month in which such assets was acquired/ installed.

3.5 Revenue Recognition

(i) All known income and expenditure quantifiable till the date of signing of report are accounted on accrual basis when virtual certainty is established.

(ii) Sales Revenue is recognized when property in the goods with all risk rewards and effective control of goods usually associated with ownership are transferred to buyer.

(iii) Sales are stated net of trade discounts and sales taxes.

(iv) The expenses and income considered payable and receivable respectively are accounted for on accrual basis.

3.6 Provisions and contingent liabilities

(i) The Company creates a provision when there is a present obligation arising as result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation, at the balances sheet date and are not discounted to its present value.

(ii) A disclosure for a contingent liability is made when there is a present obligation arising as a result of past event that probably will not require an outflow of resources or where a reliable estimate of the obligation cannot be made.

3.7 Inventory Valuation

Inventories are valued at the lower of cost and net realizable value.

3.8 Impairment of Assets

The management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impaired loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed, if and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized, the carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss being recognized for the asset in prior year/s.

3.9 Borrowing costs

Borrowing costs attributable to the acquisition and/or construction of qualifying assets are capitalized as a part of the cost of such assets, up to the date when such assets are ready for intended use. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are charged to the Statement of Profit and Loss.

3.10 Foreign Currency Transactions

Foreign currency transactions are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities in foreign currency existing at balance sheet date are translated at the yearend exchange rates. Exchange rate differences arising on settlement of transaction and translation of monetary items are recognized as income or expenses in the year in which they arise. Premium or discount on forward exchange contract is amortized as income or expense over the life of the contract. Exchange difference on such contract is recognized in the Statement of Profit and Loss in the reporting period in which the exchange rate changes. Any profit or loss arising on cancellation or renewal of forward contract is recognized as income or expenditure during the period.

3.11 Taxation

Provision for current taxes is made after taking into consideration benefits admissible under the provisions of Income Tax Act, 1961. Deferred Tax resulting from "timing differences" between taxable and accounting income is accounted for using the tax rates and laws that have been substantially enacted as of the balance sheet date. Deferred tax assets arising from timing differences are recognized to the extent there is reasonable certainty that these would be realized in future.

3.12 Earnings per Share:

Basic earnings per share is calculated by dividing net profit of the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The above should necessarily be read with the ‘Statement of Material Adjustments to the Restated Standalone Financial Statements’ appearing in Annexure – V and ‘Notes to the Restated Standalone Financial Statements’ appearing in Annexure – VI.
