The risk factors are classified as under for the sake of better clarity and increased understanding:

A. INTERNAL RISK FACTORS

I. Business Risks/ Company specific Risk

- 1. A part of the proceeds of the Issue will be utilized for repayment / pre-payment of certain unsecured loans availed by our Company from our Promoters/Directors.***

Our Company had availed long term unsecured loans from lenders including our Promoters/Directors. One of the Objects of the Issue is for repayment / pre-payment of unsecured loans aggregating to Rs. 650.04 Lakhs outstanding as on February 02, 2018 availed by our Company from our Promoters/Directors and presently carrying an interest rate of 12% p.a. These funds were utilised by our Company for working Capital needs in the past. A part of the IPO proceeds shall be utilized for retiring of debt and not for business operations. For further details, please see the chapter titled — Objects of the Issue beginning on page 87 of this Prospectus.

- 2. We sell our products under our brand name “Marvel”. If we are unable to maintain quality, our brand building exercise may be adversely affected. Any deterioration in the reputation and market perception of our brand may have an adverse effect on our sales, profitability and the implementation of our growth strategy.***

We believe that the recognition and reputation of our brand “Marvel” among customers has contributed significantly to the growth and success of our business. The ability to differentiate our brand and our products from our competitors through our branding is an important factor in attracting customers. If we fail to maintain our reputation, enhance our brand recognition or increase positive awareness of our products, it may be difficult to maintain and grow our customer base, which could have a material adverse effect on our business and prospects. However, we have understood that our brand functions as a multiplier for us. It not only increases the voice and customer awareness, but it also gives an identity and worth to our Company. It generates desire and differentiation and motivates consumers to pay more for our products than they might otherwise. So, we also protect our reputation in order to preserve credibility and trust.

- 3. Increase in the cost of, or a shortfall in the availability of materials in particular of fabrics and aluminum sections could have an adverse effect on our business, results of operations and financial condition.***

The principal material used by us for manufacturing blinds is fabrics and other components, which are made of aluminum or steel including curtain rods, mounting brackets, hold on brackets, wall finials, different types of holders, over lappers, cord handle, sliders, etc. The price of these materials has been fluctuating which is evident from the cost of materials consumed to revenue ratio of 46.12%, 53.14% and 61.33% of our total revenues for the period ended September 30, 2017 and the Fiscal Years 2016-17 and 2015-16 respectively. The price and availability of these materials depend on several factors beyond our control, including overall economic conditions, production levels, market demand and competition for such materials, import policy of the government, transportation cost, duties and taxes and trade restrictions. We usually do not enter into long term supply contracts with any of our material suppliers and typically place orders with them based on our assessment of demand for a particular product. The absence of long term contracts at fixed prices exposes us to volatility in the prices of the materials that we require. If we are unable to compensate for or pass on our increased costs to end-customer, such price increases could have an adverse impact on our result of operations, financial condition and cash flows. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us. Any inability on our part to procure materials from alternate suppliers in a timely fashion, or on terms acceptable us, may adversely affect our operations. However, in the past we have not faced any problem on non-supply of materials by our suppliers and have been able to pass on increased cost to end-customers.

- 4. Our operations are significantly dependent on our ability to successfully identify customer requirement and preferences and gain customer acceptance for our products. If we fail to do so, our business may suffer.***

Our future success depends on our ability to ensure continued demand for our products in existing and proposed markets, which requires us to continuously anticipate and respond in a timely manner to

customer requirements and preferences. Further, our success is dependent on our ability to gain customer acceptance for our current and future products. If we are unable to successfully anticipate customer requirements, or are unable to modify our current portfolio of products or develop new products, in a timely manner, we may lose customers or become subject to greater pricing pressures. However, with continuous market survey, marketing tools, updates from the industry in which we operate, we try to maintain and reach expectations of customers to meet market trends.

5. ***We partially rely on third parties for manufacturing of our top 4 products i.e. Roller, Roman, Luzon and Vertical Blinds. Any withdrawal of supply from such parties or degradation of quality of these products may adversely affect our result of operations and future prospects.***

Market organizers acts as mini factories for us who manufactures our top 4 products i.e. Roller, Roman, Luzon and Vertical Blinds at various locations and cater to our channel partners for area allotted to them. We rely on their local expertise and the decision-making. Their inability to manufacture and deliver in a timely and appropriate manner could have a negative impact on our brand and affect our operations and business. Further we are also exposed indirectly to the risks faced by our Market Organizers like strikes, frauds, compliances etc. However, our executives frequently visit Market Organizers to ensure they follow protocol for quality and on time delivery. We have established a rigorous inspection and quality control process for all our Market Organizers.

6. ***Our failure to correctly anticipate trends and adapt to the changing technological environment may result in obsolescence of and reduced demand for our products.***

Though we are committed to product innovation to respond to changing technology in the window blinds industry, there can be no assurance that we would be successful in developing new products that respond to such changes or changes in customer requirements and preferences or that our products would gain acceptance in our existing or new markets. A decline in demand for our products, or an error in our forecasts for future demand, among other things, could lower our sales, increase inventory levels and may require us to sell our products at substantially marked-down prices. Moreover, failure to correctly anticipate trends and adapt to the changing technological environment may result in obsolescence of and reduced demand for our products. However, we have been keeping pace with changes in technology and also try to keep our inventories at reasonable levels.

7. ***Failure to manage our inventory could have an adverse effect on our sales, profitability, cash flow and liquidity.***

The results of operations of our business are dependent on our ability to effectively manage our inventories and stocks. For the period ended September 30, 2017 and Fiscal Years ended 2016-17 & 2015-16, our inventories were Rs. 1851.59 Lakhs and Rs. 1928.46 Lakhs & Rs. 1545.25 Lakhs, respectively, which constituted 104.42% and 63.98% & 53.82% respectively of our total revenues for the same periods respectively, as per restated standalone financial statements. This indicates that we have to maintain high level of inventory due to our products variety, colors and range. Hence to effectively manage our inventory, we must be able to accurately estimate customer demand and our supply requirements and manufacture/import inventory accordingly. If we misjudge expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture, we may be required to write-down our inventory or create additional vendor financing, which could have an adverse impact on our income and cash flows. However, we closely monitor our inventories and any product which becomes slow moving, we try to sell at discounted prices so as to liquidate inventory.

8. ***Any delay or default in payment from our customers could result in the reduction of our profits and affect our cash flows.***

Our operations involve extending credit, ranging typically from 60 to 90 days, to our market organisers and channel partners in respect of our products. Consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. Accordingly, we had and may continue to have high levels of outstanding receivables. For the period ended September 30, 2017 and Fiscal Years ended 2016-17 & 2015-16, our trade receivables were Rs. 639.56 Lakhs and Rs. 426.79 Lakhs & Rs. 467.98 Lakhs, respectively, which constituted 36.07% and 14.16% & 16.30% respectively of our total revenues for the same periods respectively as per restated standalone financial statements. Further our Debtors over six

months have remained constant at about Rs. 100.00 Lakhs in last 3 year. We have been managing our credit period diligently and have been recovering our dues in timely manner. There have been negligible bad debts in last 5 years of our operations.

9. Our Top 4 products contributed about 72.88%, 72.74% and 70.93% of our revenues for period ended September 30, 2017, March 31, 2017 and March 31, 2016 respectively. Any loss of business from these products may adversely affect our revenues and profitability.

Our Top 4 products contributed 72.88% and 72.74% of our revenues for period ended September 30, 2017, March 31, 2017 and March 31, 2016 respectively. Any decline in our quality standards, growing competition and any change in the demand for these products may adversely affect our ability to retain and fetch new customers. We cannot assure that we shall generate the same quantum of business, or any business at all, from these products, and loss of business from these products may adversely affect our revenues and profitability. However, the composition and revenue generated from these products might change as we continue to add new products and customers in normal course of business. We intend to retain our customers by giving them the design, build quality, reliability and serviceability of our product This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth.

10. We are subject to risks arising from exchange rate fluctuations.

Our Company has been importing fabrics and few components including machines and remotes of automatic blinds. The imports constitute 45%-55% of our total purchases. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Any adverse fluctuations with respect to the exchange rate of any foreign currency for Indian Rupees may affect the Company's profitability.

Our Company has made below imports during the last 3 years:

(Rs. in Lakhs)

Sr. No.	Particulars	September 30, 2017	March 31, 2017	March 31, 2016	March 31, 2015
1.	Value of Import on CIF Basis	392.43	1056.51	729.97	655.30

However, we closely monitor our foreign currency exposure, though generally we do not hedge our positions.

11. We may be subject to risks associated with product warranty for our blinds including components.

We are subject to risks and costs associated with product warranties on account of supply of defective or inferior quality products within the warranty periods. Any defects in the finished products may result in invocation of such warranties and may require repair or replacement resulting in additional costs for our Company. The defects in our products or any product liability claim against us could generate adverse publicity, leading to a loss of reputation, customers and/or increase our costs, thereby adversely affecting our reputation, business, results of operations, financial condition and cash flows. However, we manage our risks by bringing all the parties together to look at the whole design, development, manufacture and supply chain and identify risks 'in the whole' at the beginning of product launch.

12. We have not entered into long term contracts with our Market Organisers and Channel Partners.

We have not entered into formal agreements with our Market Organizers and Channel Partners for manufacturing and sale & distribution of our products respectively. If they terminate/rescind the agreement or stop selling our products, we may not be able to find new Market Organisers or Channel Partners with an appropriate level of expertise and capacity in a timely manner, which may result in our operations being affected. In such event, we may miss the business opportunities at respective location thereby adversely affecting our operating margins and our results of operations and profitability.

13. Our Company has filed certain forms as prescribed under the Companies Act with Registrar of Companies with additional fees.

Under the provisions of Companies Act, certain forms are required to be filed within prescribed timelines. In past, our Company has exceeded such timeline for filing the forms and has paid additional fees. If our company fails to comply with the provisions for filing of forms under the provisions of the Companies Act, then the company and every officer of the company who is in default is punishable with fine.

Below are the details of forms filed late during last three financial years:

Sr. No.	Particulars	Status
1.	Annual Filing for F.Y. 2015-16	Delayed Filed with Additional Fees

14. Our Company has not maintained Fixed Assets Register.

Our company has invested Gross sum of Rs.1733.65 lakhs in fixed assets, predominantly into plant & machinery, buildings, furniture & fixtures and other equipment at its manufacturing units for the period ended September 30, 2017. However, our company has not maintained Fixed Asset Register in a proper manner, listing each asset our company owns. This register documents: what the asset is, where the asset is located, who is responsible for the asset, what the asset cost, and what the expected resale value is. There is financial consequence to not maintaining an accurate asset register. The tracking of assets can prevent theft and loss and the maintenance of assets can extend the life of the asset. As such we may have to incur loss due to theft or otherwise for unawareness of our assets.

15. We are susceptible to the risk of potential losses in the event fire breaks out in our factory.

The fabrics and chemicals that we use as our essential material for making blinds are both inflammable. In the wake of any blaze or fire-breakout in our factory due to short circuit or otherwise, it may potentially cripple our operations. This may lead to loss of revenue and profits. However, we have installed adequate fire-fighting equipment and security systems available to thwart any such fire.

16. Any shortage or non-availability of power supply may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.

Our manufacturing process requires sustained power supply which is met by Paschim Gujarat Vij Company Limited. In the event there is any disruption of power supply for long from Paschim Gujarat Vij Company Limited, the same could result in disruption of our manufacturing process which may adversely affect our results of operations and financial condition of the company. However there have been no such instances of long outages in the past few years and as precautionary measures we have installed 25KVA generator at Plot No. 94 and 125KVA generator at plot no. 210 & 211 to support our manufacturing activities in case of shortage of power supply.

17. Our Company had deposited cash during demonetization period.

Our Company had deposited cash in bank accounts during demonetization from November 08, 2016 to December 30, 2016 aggregating to Rs. 5.17 Lakhs in specified bank notes. Our Company has not received any notice from the Income Tax department regarding the same as on the date of this Prospectus. However, if any notice is received from Income Tax Department in this regard, our company will have to prove the source of cash deposited.

18. The sale of counterfeit products may affect our reputation and profitability

Our products are subject to counterfeiting. As our brand 'Marvel' is gaining consumer recognition, we encounter counterfeiting of our products, such as unauthorized imitation or replication of our designs, trademarks or labeling by third parties from time to time. Although we have been actively taking actions to combat against counterfeiting of our products, there can be no assurance that such actions will be successful in prevention of counterfeiting. A significant presence of counterfeit products in the market

could have a negative impact on the value and image of our brand, result in a loss of consumer confidence in our brand, and as a consequence, adversely affect our business and results of operations.

- 19. *Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 87 of this Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.***

The fund requirement and deployment, as mentioned in the “Objects of the Issue” on page 87 of the Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan and order position. We cannot assure that the current business plan will be implemented or order shall be executed in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter “Objects of the Issue” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency.

- 20. *Any variation in the utilization of the Net Proceeds or in the terms of any contract as disclosed in the Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval.***

We propose to utilise the Net Proceeds as stated under section titled "Objects of the Issue". For further details of the proposed objects of the Issue, please refer to section titled "Objects of the Issue" beginning on page 87 of the Prospectus. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Prospectus without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or in ability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Fresh Issue, if any, or vary the terms of any contract referred to in this Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

- 21. *Continued operations of our manufacturing facilities are critical to our business and any disruption in the operation of our manufacturing facilities may have a material adverse effect on our sales, results of operations and financial condition.***

Our manufacturing facilities are subject to operating risks, such as break-down, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters and statutory and regulatory restrictions. Improper usage of machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, paint process, etc. may result in accidents which could cause injury to our labour, employees, other persons on the site and could also damage our properties there by affecting our operations. This may lead

to delay and disruption in our production process that could have an adverse impact on our sales, results of operations and financial conditions.

22. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

23. *Our Company is dependent on third party transportation providers for the delivery of our goods and any disruptions in the operations or a decrease in the quality of their services could affect our Company’s reputation and results of operations.*

Our Company uses third party transportation providers for the delivery of goods. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operations negatively. An increase in the freight costs or unavailability of freight for transportation of our products may have any adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road/air/sea infrastructures or other events could impair ability to procure our products on time. Any such disruptions could materially and adversely affect our business, financial conditions and results of operations.

24. *There are outstanding litigations by/against our Company, our Promoters, our Directors and our Group Entities and any adverse outcome in any of these proceedings may adversely affect our profitability and reputation and may have an adverse effect on our results of operations and financial condition.*

26. Our Company had negative cash flows from our operating activities, investing activities and financing activities in some of the previous year(s) as per the Restated Standalone Financial Statements and the same are summarized as under:

Our Company had negative cash flows from our operating activities, investing activities and financing activities in some of the previous year(s) as per the Restated Standalone Financial Statements and the same are summarized as under:

(Rs. In Lakhs)

Particulars	As on September 30, 2017	As on March 31, 2017	As on March 31, 2016	As on March 31, 2015	As on March 31, 2014	As on March 31, 2013
Cash Flow from/ (used in) Operating Activities	123.42	52.98	292.74	306.85	(120.97)	(52.89)
Cash Flow from/ (used in) Investing Activities	(52.12)	(289.49)	(250.95)	(319.02)	(227.46)	(251.58)
Cash Flow from/ (used in) Financing Activities	(1.21)	54.12	(17.21)	(54.81)	311.74	(5.69)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

27. Our indebtedness and the restrictive covenants imposed upon us in certain debt facilities could restrict our ability to conduct our business and grow our operations, which would adversely affect our financial condition and results of operations.

As on date, we have aggregate fund based and non-fund based limits of Rs. 1725 Lakhs with HDFC Bank Ltd. The agreements governing our existing indebtedness contain restrictions and limitations, such as restriction on withdrawal of profits/ capital without prior approval of bank and retention of entire profits in the business, change in capital structure, etc. There can be no assurance that our Company has, and will, at all times comply with all of the terms of the said financing documents. Any failure to comply with the financial or other covenants or obtain the consents necessary to take the actions may affect our business and operations. Further, any failure to service our Company's indebtedness and/or to comply with all of the terms of the said financing documents could have an adverse effect on the operations and/or profitability of our Company. However, we have always maintained financial discipline with Banks and there is no instance of not meeting financial obligations or non-compliance with the terms and condition as on the date of this Prospectus. For further details on restrictive covenants, please refer to the chapter titled "Our History and Certain Other Corporate Matters" beginning on page 148 of this Prospectus.

28. Loans availed by our Company have been secured on personal guarantees of our Promoters and Promoter Group members. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees or collateral securities provided by our Promoters and Promoter Group members.

Our Promoters and Promoter Group Members have provided personal guarantees as security to secure our existing borrowings of Rs. 1157.20 Lakhs as on September 30, 2017 taken from HDFC Bank Limited and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by our Promoters and Promoter Group Members may be invoked and/ or the security may also be enforced, which could negatively impact the reputation and net worth of the Promoters. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. In addition, our Promoters and Promoter Group Members may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. However, we have following policy of complying with all terms and conditions of loan agreements and we ensure timely compliance of its terms. For further details regarding loans availed by our Company, please refer "Statement of Financial Indebtedness" under chapter "Financial Statement" beginning on page 178 of this Prospectus.

29. The rate of interest for the loans obtained by us from the bank is variable and any increase in interest rates may adversely affect our results of operations and financial condition.

Our Company is susceptible to changes in interest rates and the risks arising there from. Our sanction letters provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further the lenders are entitled to change the applicable rate of interest, which is a combination of a base rate that depends upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company's credit risk rating. As such, any increase in interest rates may have an adverse effect on our business, results of operations, cash flows and financial condition. However, with the inflation at ease, we do not expect any upward trend in the interest rate in short to medium term.

30. *Our revenues and expenses are difficult to predict and can vary significantly from period to period, which could cause our share price to decline.*

Our revenue and profitability have grown in certain years and are likely to vary significantly in the future from period to period. Therefore, we believe that period to period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as an indication of our future performance. It is possible that in future our results of operations may be below market expectations, which could cause the share price of our equity shares to decline significantly.

31. *Our inability to meet our working capital requirements may have an adverse effect on our results of operations.*

The Industry in which we operate is highly working capital intensive. A significant portion of our working capital is utilized towards trade receivables, inventories and other current assets. We intend to continue growing by expanding our business operations. Our inability to maintain sufficient cash flow, credit facility and other sources of fund in a timely manner, or at all, to meet the requirements of working capital could adversely affect on our financial condition & results of operations.

32. *We have not made any alternate arrangements for meeting our working capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our working capital requirements for the Objects of the Issue. Further, we have not identified any alternate source of working capital funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds could adversely affect our growth plans. We meet our working capital requirements through our owned funds, internal accruals and debt. Any shortfall in our net owned funds, internal accruals and our inability to raise debt would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 87 of this Prospectus.

33. *Our rent agreements for Plot No. 93 & 94, GIDC Phase II, Dared Jamnagar, Gujarat have expired and not renewed.*

Our rent agreements for Plot No. 93 & 94, GIDC Phase II, Dared Jamnagar, Gujarat have expired and not renewed. We cannot assure that we shall have the right to occupy these premises in future, or that we will be able to continue with the uninterrupted use of these premises. In case we are not allowed to use these premises, it may impair our operations and adversely affect our financial condition. For details on properties taken on lease/rent by us please refer to the heading titled “Property” in chapter titled “Our Business” beginning on page 105 of this Prospectus.

34. *In case of our inability to obtain, renew or maintain the statutory and regulatory licenses, permits and approvals required to operate our business it may have a material adverse effect on our business.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We believe that we have obtained all the requisite permits and licenses which are adequate to run our business. However, there is no assurance that there are no other statutory/regulatory requirements which we are required to comply with.

Some of the approvals are granted for a fixed period of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied with. Any default by our Company in complying with the same, may result in interalia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

We have regular system of checking for any regulatory license being expiring & to apply for renewal within stipulated time. For further details, please refer to section titled “Government and Other Statutory Approvals” beginning on page 242 of this Prospectus.

Further, we have made application for availing approvals like Factory License and other statutory approvals in name of Marvel Decor Limited pursuant to change in name and conversion of our Company into public limited. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to obtain the required permits or approvals in name of ‘Marvel Decors Limited’ in time may result in the interruption of our operations and may have a material adverse effect on our business.

35. *We face competition in our business from domestic and international brands. Such competition would have an adverse impact on our business and financial performance.*

We face competition in our product categories and markets in which we operate. We compete with other international and national brands which own and operate well-known brands of good quality goods and may have greater financial resources and negotiation power with suppliers, vendors and other intermediaries than we do. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. We believe that we compete primarily on the basis of our brand image, innovative design, product assortment and reputation for quality. If we are unable to compete successfully, our business and results of operations could be adversely affected.

36. *We have entered into certain transactions with related parties. These transactions or any future transactions with our related parties could potentially involve conflicts of interest.*

We have entered into certain transactions with our Promoters, Directors and their relatives and may continue to do so in future. For absolute value of all transactions entered into with our related party entities please refer to Statement of Related Party Transactions under chapter “Financial Statement” beginning on page 178 of this Prospectus. These transactions or any future transactions with our related parties could potentially involve conflicts of interest. The Company cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on business and financial results. Our Company shall follow the provisions as laid down under Companies Act, 2013 and SEBI (LODR) Regulations, 2015.

37. *Our Company may incur penalties or liabilities for some inaccuracy/clerical errors in the forms filed with ROC under certain provisions of the Companies Act.*

There have been some inaccuracies/clerical mistakes in filing of certain forms with ROC, which may result in levy of penalties and which may adversely affect our reputation. Although no show cause notice have been issued against our Company till date in respect of above, we cannot rule out possibility of receiving a notice in future.

38. *In addition to normal remuneration, other benefits and reimbursement of expenses some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

- 39. *Our success depends largely upon the services of our Management and other Key Managerial Personnel and our ability to retain them. Our inability to attract and retain key managerial personnel may adversely affect the operations of our Company.***

Our Company and our Promoters have built relations with Market Organisers, Channel Partners, suppliers, customers and other persons who are connected with our business. Further, our Key Managerial Personnel also possesses the requisite domain knowledge to provide efficient services to our clients. Accordingly, our Company's performance is dependent upon the services of our Promoters and other Key Managerial Personnel. Our future performance will, therefore, depend upon the continued services of these persons. Demand for key managerial personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.

- 40. *Our insurance coverage may not be sufficient or may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.***

We have taken insurance towards fire and perils which may not be adequate enough for covering the entire future unforeseen liabilities that might occur in the normal course of business. There can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part or on time by the insurers. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected. For further details on insurance arrangements, see the section titled "Our Business" on page 105 of this Prospectus.

- 41. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of our Company.***

Our Company is engaged in business of manufacturing of window blinds which attracts tax liability such as Income Tax, Excise, VAT, GST, Customs, Service Tax, etc. as per the applicable provisions of Law. Though, we have deposited the taxes and required returns under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of our Company.

- 42. *We have not independently verified certain data in this Prospectus.***

We have not independently verified data from the Industry and related data contained in this Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

- 43. *Our Promoters and the members of our Promoters Group will continue to retain significant control in the Company after the Issue, which will enable them to influence the outcome of matters submitted to shareholders for approval. Our Promoters and the members of our Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.***

As on the date of this Prospectus, our Promoters and the members of our Promoter Group hold 100% equity share capital of the Company. After completion of the Issue, our Promoters and the members of our Promoter Group will hold 72.91% of the equity shares capital of the Company and continue to retain a significant control of the Company. As a result, our Promoters and our Promoter Group will have the ability to control our business, including matters relating to any sale of all or substantially all of our

assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as our Promoters and the members of our Promoter Group continue to exercise significant control over the Company they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. Our Promoters and the members of our Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

II. Risk related to this Issue and our Equity Shares

44. Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

45. Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

B. EXTERNAL RISK FACTORS

46. Natural calamities and force majeure events may have an adverse impact on our business.

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

47. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.

The Issue Price of the Equity Shares will be determined by our Company in consultation with the LM and will be based on numerous factors. For further information, see the section titled "Basis for Issue Price" on page 93 of this Prospectus. The Issue Price may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurances that applicants who are allotted Equity Shares through the Issue will be able to resell their Equity Shares at or above the Issue Price.

48. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months is not subject to capital gains tax in India if securities transaction tax ("STT") is paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax. Any change in tax provisions may significantly impact your return on investments.

Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For further details, see the section titled "Statement of Tax Benefits" on page 95 of this Prospectus.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to Securities Transaction tax (STT) under Chapter VII of the Finance (No. 2) Act, 2004. In case this provision becomes effective, sale of share acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after April 01, 2018, which means that long term capital gains will become taxable.

49. *We have not prepared, and currently do not intend to prepare, our financial statements in accordance with the International Financial Reporting Standards ("IFRS"). Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Public companies in India, including us, may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (the "IFRS Convergence Note"). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 35 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of converged Indian Accounting Standards may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period and in the corresponding (restated) period in the comparative Fiscal/period.

50. *Political instability or changes in the Government could adversely affect economic conditions in India generally and our business in particular.*

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company's business could cause its results of operations to suffer. Any significant change in India's economic policies could disrupt business and economic conditions in India generally and the Company's business in particular.

51. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

52. *Economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

53. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the Mumbai terrorist attacks and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

54. *Investors may be adversely affected due to retrospective tax law changes made by the GoI affecting us.*

Certain recent changes to the Income Tax Act provide that income arising directly or indirectly through the sale of a capital asset of an offshore company, including shares, will be subject to tax in India, if such shares derive indirectly or directly their value substantially from assets located in India. The term "substantially" has not been defined under the Income Tax Act and therefore, the applicability and implications of these changes are largely unclear. Due to these recent changes, investors may be subject to Indian income taxes on the income arising directly or indirectly through the sale of the Equity Shares. In the past, there have been instances where changes in the Income Tax Act have been made retrospectively and to that extent, there cannot be an assurance that such retrospective changes will not happen again.

SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

Overview of Indian Economy

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP and Other Indicators

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

India's GDP (Gross Domestic Product) growth has recovered to 6.3% in the second quarter from a three-year low of 5.7% in first quarter, said the Ministry of Statistics and Programme Implementation (MOSPI).

The GDP at constant (2011-12) prices in Q2 of 2017-18 is estimated at Rs 31.66 lakh crore, as against Rs 29.79 lakh crore in Q2 of 2016-17, showing a growth rate of 6.3%. Quarterly GVA (Gross Value Added) at basic price at constant (2011-12) prices for Q2 of 2017-18 is estimated at Rs 29.18 lakh crore, as against Rs 27.51 lakh crore in Q2 of 2016-17, showing a growth rate of 6.1% over the corresponding quarter of previous year.

Global Economy

The pickup in growth projected in the April 2017 World Economic Outlook (WEO) is strengthening. The global growth forecast for 2017 and 2018—3.6% and 3.7%, respectively—is 0.1 percentage point higher in both years than in the April and July forecasts. Notable pickups in investment, trade, and industrial production, coupled with strengthening business and consumer confidence, are supporting the recovery. With growth outcomes in the first half of 2017 generally stronger than expected, upward revisions to growth are broad based, including for the euro area, Japan, China, emerging Europe, and Russia. These more than offset downward revisions for the United States, the United Kingdom, and India.

Among emerging market and developing economies, higher domestic demand in China and continued recovery in key emerging market economies supported growth in the first half of 2017. In India, growth momentum slowed, reflecting the lingering impact of the authorities' currency exchange initiative as well as uncertainty related to the midyear introduction of the country-wide Goods and Services Tax. Higher external demand boosted growth in other emerging market economies in East Asia. In Brazil, strong export performance and a diminished pace of contraction in domestic demand allowed the economy to return to positive growth in the first quarter of 2017, after eight quarters of decline.

SECTION IV- ABOUT THE COMPANY

OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

Overview of Indian Economy

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP and Other Indicators

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

India's GDP (Gross Domestic Product) growth has recovered to 6.3% in the second quarter from a three-year low of 5.7% in first quarter, said the Ministry of Statistics and Programme Implementation (MOSPI).

The GDP at constant (2011-12) prices in Q2 of 2017-18 is estimated at Rs 31.66 lakh crore, as against Rs 29.79 lakh crore in Q2 of 2016-17, showing a growth rate of 6.3%. Quarterly GVA (Gross Value Added) at basic price at constant (2011-12) prices for Q2 of 2017-18 is estimated at Rs 29.18 lakh crore, as against Rs 27.51 lakh crore in Q2 of 2016-17, showing a growth rate of 6.1% over the corresponding quarter of previous year.

Global Economy

The pickup in growth projected in the April 2017 World Economic Outlook (WEO) is strengthening. The global growth forecast for 2017 and 2018—3.6% and 3.7%, respectively—is 0.1 percentage point higher in both years than in the April and July forecasts. Notable pickups in investment, trade, and industrial production, coupled with strengthening business and consumer confidence, are supporting the recovery. With growth outcomes in the first half of 2017 generally stronger than expected, upward revisions to growth are broad based, including for the euro area, Japan, China, emerging Europe, and Russia. These more than offset downward revisions for the United States, the United Kingdom, and India.

Among emerging market and developing economies, higher domestic demand in China and continued recovery in key emerging market economies supported growth in the first half of 2017. In India, growth momentum slowed, reflecting the lingering impact of the authorities' currency exchange initiative as well as uncertainty related to the midyear introduction of the country-wide Goods and Services Tax. Higher external demand boosted growth in other emerging market economies in East Asia. In Brazil, strong export performance and a diminished pace of contraction in domestic demand allowed the economy to return to positive growth in the first quarter of 2017, after eight quarters of decline.

Key Indicators

Home Furnishing and Decor Market

The boom in the residential real estate industry over the last few decades has given an impetus to the home décor market. Also driving the growth of this section is an increased consciousness among home owners for stylish interiors and beautiful indoors.

The home and interiors category has varied constituents as different as chalk and cheese. The home textiles, household hardware, décor items, furniture for home and office, kitchenware, and such related items, constitute this vibrant category. No single item seems to be out of demand going by the housing sector's growth and urbanisation of many cities in the country. The consumption is not limited to new houses but has even crept into the psyche of those consumers who are looking forward to redo their home or office space as well. These days such redoing is no more a once in a lifetime, one-off occasion but keeps repeating the cycle more often.

Market Size & Growth

Total retail market is worth Rs 102,750 crore (US\$ 17.13 bn) growing at 12-13 per cent and is expected to be worth Rs 144,323 crore (US\$ 24.05 bn) by 2017. Modern retail is estimated at 19% of this total market and is expected to grow at 24-27%. Retail expansion grew at 16-21% in terms of number of retail outlets and retail space with same store revenue growth being around 15%.

Market Segmentation

The category's three broad segments – furnishings, furniture and décor, have been growing positively. There is a small shift of market share from furniture to décor during last couple of years. This is due to the reason of controlled consumption which resulted in spending less on high value items like furniture. Consumers continued to spend on furnishings as it has been and invested more in upgrading interiors and décor items to get refreshing look at home and office. The furniture market saw marginal drop of 1 per cent and décor gained with same since previous retail report.

The furniture segment contributes highest in the overall market with small furniture like chair, table, stools, cabinets, desks etc. Collection of such items generates volume business for the category. The large furniture items such as beds, sofa set, dining furniture set, large wardrobes, cup-boards are high ticket items which require higher investments. The market share of small furniture is 75 per cent and that of large is 25 per cent.

Home furnishings segment, on the other hand, contributes the lowest share of 26 per cent. The segment is further broken into sub-segments of bed linen, towels and robes, kitchen linen, curtains, upholstery, blankets, rugs and carpets. Among these sub-segments bed linen has the largest share close to half of total market. But the faster growing sub-segments are curtains, upholstery, blankets, rugs and carpets.

Challenges faced by the sector

- The perception and outlook of the industry also needs to change. It is still not open to innovation and experiment. Second major issue is the skyrocketing real estate price which makes it very difficult for new ventures to be profitable. Indian market is also susceptible to global economic volatility which makes an impact on the home furnishing players. However, in spite of all this I feel Indian artists, designers brands have lot of potential to market themselves globally but a lot of effort needs to be there for marketing and promotion
- Currently people like to shop online rather than to shop offline because of the many advantages and benefits available. There are many schemes, discounts and pocket-friendly offers that are offered by many retailers that attracts the customers and yet it is the another way to save money. Also, Government should start financial benefit programs for small scale workers who make very alluring handmade products and still not getting the enough wages to fulfill their needs to feed their family.
- Improper distribution channels and retail infrastructure are the major factors affecting growth of this industry. Quality also has been an issue that needs to be taken a note off.

The factors which are propelling the growth of Home Decor and Furnishing sector

- People have started taking their home as the reflection of themselves and so, a lot of people are now spending more on both furniture and fixtures and also on home decor.
- Working women are spending a lot on home fashion.
- Disposable income, better education and also the growing trend of individuals opting for professional services to do their interiors have together led to a rise in this category.
- Indians are well travelled now and have an exposure to lifestyles in other countries, this inspires them to have a similar lifestyle for themselves too.

Global Blinds and Shades Industry

The global market for Blinds and Shades is projected to reach US\$16.7 billion by 2022, driven by the wide array of design ideas, styles, fashion trends and product functionality improvements. Other major factors driving growth in the market include recovering construction activity, growing consumer preference for custom blinds, rising popularity of automated blinds and shades, and rise in smart homes and the ensuing demand for smart-glass based window shade solutions that maximize energy savings. The United States represents the largest market worldwide. Asia-Pacific is forecast to emerge as the fastest growing market with a CAGR of 4.3% over the analysis period. The growth in the region is led by rapid urbanization, growing sophistication of interior Decor preferences among the upwardly mobile middleclass population, increasing investments in commercial real estate, and strong demand for “green” eco-friendly solutions like shades & blinds manufactured from woven wood, reeds, bamboo, grasses, and jute.

Window blinds and shades present an attractive option for home owners to add elegance and style to interiors while enjoying the privacy and letting in natural light to ensure desirable warmth. Blinds and shades allow users to brighten interiors and transform the overall atmosphere. The market for window blinds and shades is witnessing an increasing popularity of bold prints, environment-friendly fabrics, exciting colors, motorized products, and roman shades. Blinds represent the most preferred window covering option supported by its superior attributes over curtains in terms of sturdiness; being the most economical; space saving due to the absence of any type of poles or holdbacks; less obtrusive and therefore ideal for smaller recesses and windows; and the ability to withstand conditions of high humidity, especially in spaces such as bathrooms and kitchens.

Future growth in the market will be driven by ever-changing fashion and functionality trends, immense popularity of automated blinds and shades owing to their ability to maximize energy savings and make homes smarter; launch of smart-glass based window shade solutions in place of electronic window shades; and growing prominence of green or organic materials. Apart from their durability, aesthetic appeal and easy maintenance, constant innovations and advancements in production and design processes bode well for market growth. Few of the newer trends, features, styles, and designs that are driving increasing market adoption include apex blinds, cellular blinds, colinear blinds, roller blinds, a combination of pleated and roller blinds, pleated shades such as Roman shades, roller shades, sheer horizontal shades and solar shades, Roman blinds, open Roman blinds, venetian blinds, vertical blinds, wooden blinds, and zebra blinds, among others. Other important growth drivers include positive outlook for the global

construction industry; increasing focus on custom blinds; rising demand for cellular blinds, multi-layered windows and motorized window blinds; favorable demographic trends, and huge opportunities in the retrofit segment driven by the global 'green' standards and other statutory requirements.

As stated by the new market research report on Blinds and Shades, the United States represents the largest market worldwide. Asia-Pacific is forecast to emerge as the fastest growing market with a CAGR of 4.3% over the analysis period. Growth in the region is led by population growth, increased urbanization, and expanding base of affluent middle class population. Increased manufacturing activity due to ready low cost feedstock and easy access to cheap labor is particularly benefiting the market in China and India. On the production front, the region has emerged as a significant provider of customized blinds and shades, with several low-cost producers entering the fray, especially in China.

OUR BUSINESS

In this section, unless otherwise stated, references to “Company” or to “we”, “us” and “our” refers to Marvel Decor Limited. Unless otherwise stated or the context otherwise requires, the financial information used in this section is derived from our Restated Financial Statements.

BACKGROUND

Our Company was incorporated as Modele Blinds and Components Private Limited in October 1996 with Mr. Ashok Ramniklal Paun, Mr. Dipak Paun, Ms. Minal Mayank Gandhi and Ms. Rashmi Ajay Bhargava as initial subscribers holding 100 shares each. Our Promoters Ashok Ramniklal Paun and Mr. Dipak Paun, were meanwhile conducting business in the name of Accumax Industries, a partnership firm, manufacturing accessories for blinds.

In the year 2000-2001, our Promoters Mr. Ashok Paun and Mr. Dipak Paun took over the command of our Company and accelerated the business with manufacturing of venetian blinds components and supplying it to the company making venetian blinds. Our first manufacturing unit was established in the year 2000 at Plot No. 93 & 94, GIDC Phase II, Dared, Jamnagar, Gujarat in which manufacturing of readymade venetian blinds specially for Reliance Refineries started and continued for five years. In the year 2005-2006 Mr. Ashok Paun established “Marvel” as a brand commencing with the manufacturing of Curtain rods. In year 2011-2012 manufacturing of Roller blinds commenced and we started supplying it to the furnishing stores. Later manufacturing of Bamboo, Vertical and Wooden Venetian blinds were added to the cart.

Having a vision of growing the brand “Marvel” and taking it to the PAN India level; in the year 2013-2014, Marvel took a great leap with a valiant decision of Mr. Ashok Ramniklal Paun introducing 9 blinds range at one single bound. Marvel started its second manufacturing unit at Plot No. 211, GIDC Phase II, Dared, Jamnagar, Gujarat. This was a turning and a challenging phase for Marvel as we also introduced “Gallery” concept for marketing our blinds making it a point to be a known brand providing niche range to its channel partners. Today, Marvel has marked its presence nationwide having 338 galleries, in 224 cities of 24 states. It definitely needed much of market expertise, knowing the business insights, aggressiveness and devotion to be at the peak. Ultimately it worked out and it enhanced the brand image, new blinds range were introduced in the market, excellence in manufacturing facilities and improvised awareness to people about blinds.

Thereafter, in the year 2016-2017 we started expanding our second manufacturing unit to Plot No. 210, GIDC Phase II, Dared, Jamnagar, Gujarat to increase our production capacity with ultra modern machineries. Within a period of 2 years since year 2014, we created PAN India presence through our channel partners. In order to eliminate the time constraint for delivering the products to the clients on/ before committed time frame, Marvel has introduced Market Organizers in 14 strategic locations across the nation who function as a mini factory to Marvel. The operating factories are designed and constructed as per company standards with adequate equipped machineries and are being in a stringent audit on a regular basis with equivalent quality check as per the company norms. Manufacturing of the highly demanded 4 products viz. Roller, Roman, Luzon and Vertical blinds takes place here whereas the semi finished materials are provided from our factory. This has helped to overcome the hindrance and living up to the word of commitment and serve our customers at its best.

The phase between the commencement of the business and 2014 was meeting the business requirements by providing the usual blinds running in the market. However, as cited 2014 to 2016 was an axis point embarking itself in to a substantial attainment.

Marvel over the years has established itself as a manufacturer of contemporary, high quality window furnishings. A dynamic in-house manufacturing, administration and design team and a nationwide distribution network, we assist our consumers with all of their design, stock, fittings and fabrication requirements. COMPETITION

The window covering fashion industry market in India is characterized by a large number of differentiated products with considerable overlap in the functional utility of such products. Customers have a choice of range of products which have similar characteristics but sold by different suppliers.

The organized segment of the market, while competing amongst the players in organized segment, also competes with players in the unorganized segment in respect of products differentiated by only the brand but otherwise having

similar characteristics. Thus, in the Indian retail market, the customers look at suppliers/retailers in both the organized and unorganized segments in exercising their shopping choices, but after implementation of GST, the competition from unorganized players is reduced.

Our Major competitors are Hunter Douglas, Alps Industries Limited (Vista), D'décor and lot of regional players in both organized and unorganized market.

We have vast experience in the industry we operated and we believe that our Company will not only maintain but further enhance its position in the industry. We believe that our ability to compete effectively is primarily dependent on ensuring consistent quality of the products that we offer, with complete customer satisfaction at competitive prices. Our research & development helps us in adopting the changing requirements of our customers in timely manner which gives us an edge over our competitors.

MARKETING

Effective marketing starts with a considered, well-informed marketing strategy. A good marketing strategy helps define vision, mission and business goals, and outlines the steps needed to take to achieve desired goals. Our marketing services are designed with an objective of enhancing the brand awareness and spreading reach of our products. Our Company is one of the leading companies in India in window blinds due to our quality, wide range of products, prompt services, and innovative ideas at affordable prices. The orthodox way of covering windows was to use curtains which didn't give much choice as far as style was concerned. Marvel, has brought the trend of blinds in India. It has brought awareness in people that the blinds cannot be restricted to offices but also can be used at homes. They have lot of advantages as they are light, soft, have wide range of colours, Design and easy to maintain.

Marvel specializes in Roller Blinds, Roman Blinds, Vertical blinds, Bamboo Blinds, Wooden Venetian Blinds, Luzon Blinds, Grayson Blinds, Eton Blinds, Patricia Blinds, Aric Blinds, Colby Blinds, Meliso Blinds, Dorren Blinds, Sierra Blinds, Curtain Rods, Automation and Tracks, with the State of Art technology creating its presence globally. based on our lengthy experience. Our company prides itself on making great products at a great price, and rises to the challenge of helping retailers meet their margins. We are dedicated to developing brands and products for our Customers and Consumers that create more enriched lives.

COMPETITION

The window covering fashion industry market in India is characterized by a large number of differentiated products with considerable overlap in the functional utility of such products. Customers have a choice of range of products which have similar characteristics but sold by different suppliers.

The organised segment of the market, while competing amongst the players in organised segment, also competes with players in the un-organised segment in respect of products differentiated by only the brand but otherwise having similar characteristics. Thus, in the Indian retail market, the customers look at suppliers/retailers in both the organised and unorganised segments in exercising their shopping choices, but after implementation of GST, the competition from unorganized players is reduced.

We have over two decades of experience in the industry we operated and we believe that our Company will not only maintain but further enhance its position in the industry. We believe that our ability to compete effectively is primarily dependent on ensuring consistent quality of the products that we offer, with complete customer satisfaction at competitive prices. Our research & development helps us in adopting the changing requirements of our customers in timely manner which gives us an edge over our competitors.
